24hour home care

How to Find a Caregiver

Through 24 Hour Home Care, Veterans can choose a trusted caregiver from their own network. Veterans select the caregiver — we handle the hiring, training, and pay.

Step 1: Start With People You Already Trust

Think about someone who already knows you and your routine:

- Family members (adult children, siblings, cousins)
- Friends or neighbors
- Former caregivers or aides
- Fellow veterans
- Members of your church or community group
- If someone already helps you, they may be eligible

Step 2: Ask Your Network

Simple text or call script:
"I was approved for VA home care and I can choose my own caregiver. It's a paid position with training and support provided. Would you be open to helping me a few hours a week?"
This is a real job — not a favor.

Step 3: If You Don't Have Someone Yet

Try these local resources:

- Veterans groups, VFW halls, or community centers
- Church bulletins or community boards
- Facebook groups or neighborhood forums
- Ask your VA social worker or case manager
- Local colleges or CNA programs (students often seek part-time work)

Step 4: Once You Identify Someone

Contact us right away so we can begin the hiring process and keep your VA services moving.
